

## All-Rack Cabinet

### 45U 800 x 1000 Black Server Cabinet with Meshed Door

---

**This 45U black server cabinet with open mesh front door is ideal for enclosed environment server rooms in data centres.**

The All-Rack floor-standing server cabinet is a high quality and cost effective 19" rack and comes complete with fan-trays, shelving and management trays to provide solution.

All doors and panels are lockable and removable giving all round access. Cable entry is from directly underneath or through knock out points in the rear of the built-in plinth.

Full height cable channels on both sides of the cabinet provide cable management. The rear door is a vented double "wardrobe" style door.
